How to bet on football?

Placing a bet on football couldn't be easier than it currently is at LeoVegas, once you have created an account, simply head to our sportsbook section and use the filter option to find all of our football options. Our filter will also allow you to choose between individual leagues and nations for your selections. If you wish, you can also only see betting odds for a select number of leagues, you can select up to 10 leagues to view at once, making LeoVegas a perfect option for your weekend accumulators.

What is BTTS in Football Betting?

BTTS is an acronym for the term 'Both Teams to Score', one of the most popular markets in betting, bettors will often place BTTS bets across a wide range of leagues and nations for weekend fixtures. This means that both teams will score in the game. However, BTTS can also be pushed further, for example, if you look into our markets, you will find BTTS for individual halves and in both halves, these are used to provide enhanced odds in your bet slip.

How does handicap betting work in football?

Commonly found in other sports such as basketball, handicap betting is the process by which an uneven game on paper is made more equal in our football betting markets. This is done by giving the favoured team a handicap, i.e. an obstacle to overcome. In the case of football, this is presented in the form of goals, with a -2 handicap for a team meaning that they would need to win the match by more than two goals for the bet to be successful.

What does under 2.5 goals mean in football betting?

In football, you can bet on the total number of goals in a football match. Sometimes the totals can be confusing as they are presented as decimal numbers rather than whole ones, for example; 2.5 goals. The reason is to avoid any doubt about whether a selection has been successful or not, as you can't score half a goal. So, betting on under 2.5 goals in football would be a successful bet if the final score was 0-0, 1-0, 1-1, or 2-0. However, if more than 2.5 goals were scored, the bet would be unsuccessful.

Does my football bet include extra time or penalties?

This is a scenario that will depend on which bet you place but most cases, the answer to this will be no. Unless specified when you place the bet, your bet will only be counted over the course of 90 minutes. For Cup competitions where extra time and penalties are applicable, you will often find that the bet will specify whether or not it covers the variable of extra time and penalties.

Are footballers allowed to bet?

The position of a professional football player means they can be privy to information that gives them a betting advantage, this means that any football-related gambling activity is strictly prohibited. However, Footballers are allowed to bet on sports other than football, for example, you'll often see footballers engaging in horse racing betting as they have no links that would give them a betting advantage.

Can you bet on preseason football?

Absolutely! If you see a friendly match that you like the look of, it's highly likely that you'll be able to place a bet on it with LeoVegas. You will be able to find the vast majority of betting markets available on-site for friendly games that you would find for the likes of the Champions League or the Premier League.

How to read odds when betting on football betting

Reading odds ultimately comes down to which format is your preference, there are three to choose from, these are American, Decimal and Fractional. In the UK, Fractional is the preference, in Europe, Decimal is the preference and in American, American style odds are the preference. Fractional odds will read as 1/10, this shows that for every total of the second number you place, the first number would be your return, so in this instance, if you staked £10, you would get £1 back.

What does DNB mean in betting on football?

DNB stands for 'Draw No Bet' this is a market that is based around the idea that if the game ends in a draw, you'll get your money back. Primarily based on games where one team is hitting a good run of form, this bet allows you to place a bet with a safety net knowing that if a team fails to perform and draws the game, you'll get your money back.

Regras básicas do Bacará

O jogo é jogado com seis ou oito baralhos de cartas francesas.

As cartas de 2 a 9 têm face value, as dez, valetes, damas e reis têm zero valor, e os ases valem um.

O total de todas as cartas é calculado, descartando a dezena de unidades. Por exemplo, um 8 e um 7 seriam uma pontuação de 5 (ao invés de 15).

O jogador pode fazer uma aposta na mão do jogador, na mão do banqueiro ou em uma igualdade entre eles.
